

Small scale and artisanal fisheries

TOPIC 3:

The state of fisheries resources

Stuart Kininmonth

USP, UiO, SU

UiO : University of Oslo

Characterized by...

The most diverse species extraction of any common pool resource activity.

Very high diversity of gear and equipment.

Mostly regulated by locally control.

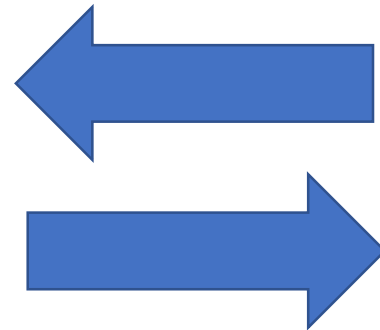

Often supplemented with other livelihoods

Action points

- The establishment of large networked MPAs, with enforcement, while incorporating traditional systems.
- Community-based education on fisheries value-chain influences.
- Market based enforcement of restricted sizes and species.

Their future....
